01 Kakaretso ya sehlooho

Sebaka sa temo se arolelwanwang, se nang le tlhahiso ya setjhaba le sebaka sa kopano.

Siyazama Community Garden ke mohlala wa Soweto, GP. Rejisetara ya yona e na le bankakarolo ba baholo ba 28, dihlahiswa tse rekotilweng tsa 1 240 kg le kgatelopele ya thupelo ya 92%.

Boemo: E a atleha. Mohokahanyi: Nomsa M..

E lokisitswe 2026-09-06. Kgatiso ya leeto · Direkoto tse lokisitsweng le meralo ya mohlala.

02 Sebaka sa tshimo le sa tlhahiso

Mofuta wa tshimo: Tshimo ya setjhaba. Puo ya sehlopha: isiZulu.

Sebaka se ka hare ho moedi: 6 000 m².

Dibethe tsa meroho: 1 800 m². Dikarolo tsa dijalo tsa motheo: 1 200 m². Sebaka sohle se lenngweng: 3 000 m².

Sebaka se setseng se kenyelletsa meaho ya mohlala, ditsela tsa phihlello, dibaka tsa difate le sebaka se seng. Ha se fumanehe bakeng sa ho lema ka bo sona. Dibaka di tswa rejisetareng ya leeto, eseng ditekanyong tse nahanelwang ho tswa setshwantshong.

Ntlha ya mmapa e supa sebaka sa Soweto, GP; ha se setsha se lekantsweng ka phuputso kapa taelo ya ho tsamaya.

03 Moralo le tekolo ya sebaka

Moralo wa mohlala o arola polokelo, sebaka sa kopano, dikarolo tsa meroho, sebaka sa dijalo tsa motheo, difate le ntlha ya metsi.

Dintlha tsa moralo: boikarabelo bo arolelwanwang, phihlello ya metsi le ho boloka direkoto ka toka ke dintlha tse kgolo tsa tshebetso. Botho ba sehlopha ha bo a lokela ho nahanelwa ho tswa

ditshwantshong.

Moralo wa mobu: boemo ba dibethe le taolo ya mobu di lokela ho nahanelwa hammoho le metsi le phihlello. Ha ho sephetho sa laboratori se lekantsweng se fanweng mohlaleng ona, kahoo ha ho pH, bongata ba dimatlafatsi kapa tekanyo ya dintho tse lokisang mobu e tiiswang.

Setshwantsho sa mohlala se bontsha mofuta ona wa tshimo. Dintlha tse bonahalang ha se rejisetara e netefaditsweng mme ha di kgone ho netefatsa boholo, beng, boteng ba metsi kapa dimelo tsa mobu.

04 Ditlhoko tsa metsi, meaho ya motheo le ho lema

Moralo wa mohlala o tshwaya ntlha ya metsi. Mohlodi, bokgoni ba polokelo, botshepehi le boemo ba ho kenngwa ha yona ha di a lekanngwa leetong lena.

Dibaka tse abetsweng meroho le dijalo tsa motheo di rekotwa ka thoko. Matshwao a difate a bontsha moelelo wa moralo; mefuta, palo e lenngweng, ho phela le kgolo di hloka bopaki ba tsona.

Dumellanang ka lenane la mosebetsi, ditokisetso tsa phihlello le direkoto tsa kabo ya dihlahiswa. Abelang motho boikarabelo ba mohato ka mong wa ho latela.

Tshisinyo efe kapa efe ya polokelo ya metsi kapa ya matla a letsatsi e hloka ditlhaloso tse loketseng, moralo wa ho kenya, ditjeho le boikarabelo ba tlhokomelo pele e eba mosebetsi o tsheheditsweng ka ditjhelete o lokelang ho phethwa.

05 Tlhahiso, ho nka karolo le ho ithuta

Kotulo e rekotilweng: 1 240 kg. Ena ke kakaretso e tshwanang le e bontshitsweng boitsebisong ba tshimo ena. Ha se ponelopele ya kotulo kapa sephetho se netefaditsweng ka boikemelo.

Bankakarolo ba baholo ba 28 ba rejisetareng ena ya mohlala. Palo ya thupelo ya 92% e bontshitsweng ke kgatelopele, ha se bopaki ba ho ntlafala ha mekgwa ya boiphediso.

Lenane ha le fane ka nako e tshwanang ya ho tlaleha sejalo ka seng bakeng sa tshimo ka nngwe. Le se ke la bala kotulo ya selemo, phaello kapa dipolokelo tsa lelapa ho tswa dikakaretsong tsena.

Tlaleho ya nnete e lokela ho arola dihlahiswa tse bolokilweng, tse fanweng, tse rekisitsweng le tse lahlehileng, mme e sebedise ho ba teng le ditekolo tse nang le matsatsi bakeng sa diphetho tsa thuto.

06 Mohlala wa ho boloka dibuka tsa tshimo ya ditholwana

Direkoto tsa mohlala tsa ho hlahloba ho rekota ditholwana le tse bitswang “nuts”; di arohane le kakaretso ya boitsebiso ba tshimo e ka hodimo mme ha di netefatse mefuta e lenngweng kapa dikotulo tsa sehla.

Avocado: 24 kg e kotutsweng; 18 kg e rekisitsweng; 6 kg e bolokilweng; R360 e amohetsweng.

Lemon: 18 kg e kotutsweng; 12 kg e rekisitsweng; 6 kg e bolokilweng; R120 e amohetsweng.

Macadamia: 10 kg e kotutsweng; 8 kg e rekisitsweng; 2 kg e bolokilweng; R240 e amohetsweng.

Mango: 30 kg e kotutsweng; 24 kg e rekisitsweng; 6 kg e bolokilweng; R360 e amohetsweng.

Marula: 12 kg e kotutsweng; 6 kg e rekisitsweng; 6 kg e bolokilweng; R60 e amohetsweng.

Bulang Direkoto ho bona dikotulo, thekiso le di-invoice tse hokahaneng. Bongata ba tshimo ya ditholwana bo ka kenyeletswa kapa ba tloswa dikerafo tsa kotulo; lekeno la tshimo ya ditholwana ha le arolwe ka sebaka sa dibethe tsa meroho.

07 BOQ le boitokisetso ba tshehetso ya ditjhelete

Motheo wa bongata bo tsejwang: 1 800 m² ya sebaka sa meroho le 1 200 m² ya sebaka sa dijalo tsa motheo. Dikabo tsena ha se ditlhaloso tsa kaho.

Kakaretso ena ha e na bongata ba kaho bo lekantsweng kapa ditheko tse qotsitsweng ke bafepedi. Ditlhoko tse sa rekwang ha se ditlhoko tse se nang ditjeho; boitlamo ba tshehetso ya ditjhelete bo hloka netefatso.

Lekolang diphutheloana tse felletseng moo ho hlokahalang: polokelo ya metsi le motheo le dikgokelo tsa yona; ho lema le tlhokomelo ya ho qala; thepa ya matla a letsatsi le ho e qala ho sebetsa. Netefatsang bongata le tse itshetlehileng ka tse ding pele le beha ditheko.

Bolokang mosebetsi o dumelletsweng wa projeke ya hona jwale o arohane le ditlhoko tse eketsehileng tse kantle ho tekanyetso. Tshebetso e sisintsweng ya Tshehetso ya ditjhelete le phano e tla hokahanya ditlhoko tseo le di-BOQ tse nang le ditjeho le dikabo tsa bafani; tshebetso eo e felletseng ha e so fumanehe.

08 Bopaki ba phano le mehato e latelang

Tse tlang pele tsa ho latela: bolokang lenane la mosebetsi mme le hlahlobe bopaki pele le arolelana ditaba tse latelang tsa lenaneo.

Hlahlobang lenane le ditlhoko tsa tshehetso le sehlopha; bapisang direkoto tse nang le matsatsi pele le tlaleha diphetoho diphethong.

Rekotang ditanka tse kentsweng le bokgoni ba polokelo ka thoko ho metsi a bokelletsweng a lekantsweng. Rekotang bokgoni ba matla a letsatsi bo qadileng ho sebetsa ka thoko ho eneji e hlahisitsweng. Rekotang difate tse lenngweng ka thoko ho ho phela ha tsona le kotulo ya ditholwana.

Sebedisang ditshwantsho tse nang le matsatsi, dirasiti, direkoto tsa ketelo le ditekolo tse loketseng tsa tshebetso. Invoice e lefilweng kapa setshwantsho se entsweng ka AI ha se netefatse hore ho kenya ho phethilwe.

09 Motheo wa tlaleho

Boemo ba nako eo: g1 / 2026-09-06. Mohlodi: lenane la ditshimo le lokisitsweng le tlhaloso ya tekolo e ikgethang ya mofuta wa yona.

E lokisitswe ho tswa direkotong tsa leeto; ha ho phuputso ya sebaka ya setsebi kapa tshekatsheko ya nnete e entsweng.

Setshwantsho se entswe ka AI mme moralo ke wa mohlala, ha o ya ka sekala. Ditshwantsho tsa batho ba baholo dibakeng tse ding tsa leeto di ka ipheta.

Sebedisang sebaka se arohaneng sa mosebetsi sa Ubhejane bakeng sa moralo o hokahaneng wa polasi o ka hlophiswang. Ho bula tlaleho ena ya tshimo ha ho ngole hodima mmapa kapa tlaleho ya nnete.

Mongolo wa pele wa Senyesemane

Executive summary

A shared growing site with communal production and a meeting space.

Siyazama Community Garden is the Soweto, GP example. Its register contains 28 adult participants, 1 240 kg of logged produce and 92% training progress.

Status: Thriving. Coordinator: Nomsa M..

Prepared 2026-09-06. Tour edition · Prepared records and schematic layouts.

Site and production area

Garden type: Community garden. Group language: isiZulu.

Site boundary area: 6 000 m².

Vegetable beds: 1 800 m². Staple plots: 1 200 m². Total planted area: 3 000 m².

The remaining site area includes schematic buildings, access, tree areas and other space. It is not automatically available for planting. Areas come from the tour register, not measurements inferred from the photograph.

The map point refers to the Soweto, GP area; it is not a surveyed property or a navigation instruction.

Layout and site assessment

The schematic separates the store, meeting area, vegetable blocks, staple area, trees and water point.

Planning considerations: shared responsibilities, water access and fair record keeping are the main operational issues. Group membership must not be inferred from photographs.

Soil planning: bed condition and soil management should be considered with water and access. No measured laboratory result is supplied for this example, so no pH, nutrient concentration or amendment rate is asserted.

The reference photograph illustrates this garden type. Its visible details are not a verified inventory and cannot establish dimensions, ownership, water availability or soil properties.

Water, infrastructure and planting needs

The schematic marks a water point. Its source, storage capacity, reliability and installation status have not been measured in this tour.

Vegetable and staple allocations are recorded separately. Tree symbols indicate planning context; species, number planted, survival and maturity need their own evidence.

Agree the work roster, access arrangements and produce distribution records. Assign an owner to

each follow-up action.

Any water storage or solar proposal needs an appropriate specification, installation plan, costs and maintenance responsibility before it becomes a funded deliverable.

Production, participation and learning

Harvest logged: 1 240 kg. This is the same total shown in this garden profile. It is not a yield forecast or independently verified result.

28 adult participants are in this example register. The displayed 92% training figure is progress, not proof of improved livelihoods.

The catalogue does not provide a common crop-by-crop reporting period for every garden. Do not calculate annual yield, profitability or household savings from these totals.

A live report should distinguish produce kept, donated, sold and lost, and use dated attendance and assessments for learning outcomes.

Orchard bookkeeping example

Worked records for exploring fruit and nut capture; these are separate from the garden profile total above and do not establish planted species or seasonal yields.

Avocado: 24 kg picked; 18 kg sold; 6 kg retained; R360 received.

Lemon: 18 kg picked; 12 kg sold; 6 kg retained; R120 received.

Macadamia: 10 kg picked; 8 kg sold; 2 kg retained; R240 received.

Mango: 30 kg picked; 24 kg sold; 6 kg retained; R360 received.

Marula: 12 kg picked; 6 kg sold; 6 kg retained; R60 received.

Open Records to view the connected harvests, sales and invoices. Orchard quantities can be included or excluded from harvest graphs; orchard income is not divided by vegetable-bed area.

BOQ and funding readiness

Known quantity basis: 1 800 m^2 of vegetable area and 1 200 m^2 of staple area. These allocations are not construction specifications.

This overview has no measured construction quantities or supplier quotations. Unpriced needs are not zero-cost needs; funding commitments require confirmation.

Assess complete packages where needed: water storage with its base and connections; planting with establishment care; solar equipment with commissioning. Verify quantities and dependencies before pricing.

Keep approved current-project work separate from additional needs outside the budget. The proposed Funding & delivery workflow will connect those needs to costed BOQs and funder allocations; that full workflow is not yet available.

Delivery evidence and next actions

Priority follow-up: maintain the work roster and review evidence before sharing the next programme update.

Review the roster and support needs with the group; compare dated records before reporting changes in results.

Record installed tanks and storage capacity separately from measured water collected. Record commissioned solar capacity separately from energy produced. Record planted trees separately from survival and fruit harvest.

Use dated photos, receipts, visit records and appropriate operational checks. A paid invoice or an AI-generated image does not verify a completed installation.

Report basis

Snapshot: g1 / 2026-09-06. Source: the prepared garden catalogue and its type-specific assessment narrative.

Prepared from tour records; no professional site survey or live analysis was performed.

The photograph is AI-generated and the layout is schematic, not to scale. Adult portraits elsewhere in the tour may repeat.

Use the separate Ubhejane workspace for the connected editable farm design. Opening this garden report does not overwrite any real map or report.
