Register with the Department before beekeeping. Registration lasts 24 months from registration or renewal and must be renewed when it expires.

A beekeeper who fails to renew registration at expiry will be deregistered and face penalties under the Act.

Beekeeping activities and hired beekeeping services require a valid registration certificate. Check the certificate before using a beekeeper.

Every beehive must be clearly and legibly marked with the beekeeper's registration number.

Keep written records of colonies, apiary locations, diseases, disease-control measures and colony losses with their reasons.

Do not move honeybees across the Cape bee line, or keep Cape bees north of it, without written approval.

Ducks are one of the domesticated animal species listed in the Meat Safety Act, so its rules on registered abattoirs and hygiene apply to them.

Ducks slaughtered to be sold must be slaughtered at a registered abattoir; slaughter for the farmer's own consumption is exempt but that meat may not be sold.

At the abattoir, ducks must be handled humanely during loading, transport, offloading, housing, immobilising and killing, under the Animals Protection Act.

The indigenous Mozambique Tilapia (O. mossambicus) is not a listed invasive species and may be farmed without an alien-species permit; the faster-growing Nile Tilapia (O. niloticus) is.

Nile Tilapia (Oreochromis niloticus) is a nationally listed invasive fish species: Category 1b inside National Parks, Provincial Reserves, Mountain Catchment Areas and Forestry Reserves, and Category 3 in all other areas.

Outside protected areas Nile tilapia is Category 3: it may remain in prescribed areas or provinces, but further propagation or trade is prohibited.

Nile Tilapia has been listed under the NEMBA Alien and Invasive Species Regulations as requiring a permit to produce.

Producing an alien or invasive species (such as Nile Tilapia) is prohibited in areas designated under the Protected Areas Act and the Fish Sanctuary Act; a permit is required to produce it elsewhere.
