INPUTS

# Seed and seedling buying schedule

Find the month, then the crop and bed. Check the seed quantity and sowing method before buying.

**The buying rule**

Source direct-sown or tray seed before the named sowing month; the source does not provide a universal procurement lead time. Ready-grown seedlings are listed at the start of the field-readiness window; buy them only when the bed and seedlings are ready. Living corms, slips, cloves and seed potatoes are listed close to planting. For a tray crop, choose either packet seed for the nursery or ready-grown seedlings - not both.

A published field seed rate gives a weight range for the mapped area. Confirm the sowing method with the supplier; no germination or loss allowance is added. For crops without a published seed rate, field spacing supports only an approximate FINAL stand. It does not prove a seed-buying quantity: use the packet's crop-specific sowing rate and germination guidance. Living-material ranges are approximate field positions from mapped area and published spacing, not guaranteed order quantities or loss allowances; supplier and crop-specific guidance may change what to purchase.

| Source/check | Crop | Quantity | Method | For | Planting timeline |
|---|---|---|---|---|---|
| **December 2026** | Butternut | Packet rate needed | Direct sow; ~10 final positions | Bed 3 | Sow Dec |
| **March 2027** | Broccoli | ~11–21 seedlings positions | Ready seedlings; own seed before Feb nursery | Bed 6 | Source own seed before Feb; nursery Feb; check/transplant Mar-May |
| **April 2027** | Carrots | Packet rate needed | Direct sow; ~316–1 585 final positions | Beds 2, 4 | Sow Apr |
| **October 2027** | Green beans | Packet rate needed | Direct sow; ~98–230 final positions | Bed 5 | Sow Oct |
| | Lettuce | ~21–37 seedlings positions | Ready seedlings; own seed before Sep nursery | Bed 2 | Source own seed before Sep; nursery Sep; check/transplant Oct-Dec |

A i athu ṱolwa nga muḓivhi wa zwa vhulimi — ndi tsumbanḓila ya u pulana, a si ndaela. I sumbedzeni muṱuṱuwedzi waṋu wa zwa vhulimi, ni ite ndingo ya mavu musi ni sa athu shumisa tshelede kha mavu. Dzilebulu dza muvhigo u bviswaho dzi na ṱhalutshedzelo dzi sa athu u sedzuluswa. Mańwalwa a muvhigo wo vhulungwaho a dzula nga luambo lwe a rekhodiwa ngalwo.

## Seed and seedling buying schedule (continued)

| Source/check | Crop | Quantity | Method | For | Planting timeline |
|---|---|---|---|---|---|
| **October 2027** | Maize (mielies) | Packet rate needed | Direct sow; ~21–22 final positions | Bed 7 | Sow Oct |
| | Sweet potato | ~9–17 slips positions | Living pieces; confirm loss allowance | Bed 6 | Sow Oct |
| **November 2027** | Tomatoes | ~6–17 seedlings positions | Ready seedlings; own seed before Oct nursery | Bed 4 | Source own seed before Oct; nursery Oct; check/transplant Nov-Jan |

A i athu ṱolwa nga muḓivhi wa zwa vhulimi — ndi tsumbaṇḓila ya u pulana, a si ndaela. I sumbedzeni muṱuṱuwedzi waṋu wa zwa vhulimi, ni ite ndingo ya mavu musi ni sa athu shumisa tshelede kha mavu. Dzilebulu dza muvhigo u bviswaho dzi na ṱhalutshedzelo dzi sa athu u sedzuluswa. Mańwalwa a muvhigo wo vhulungwaho a dzula nga luambo lwe a rekhodiwa ngalwo.

PLAN VERSUS REALITY

# Monthly harvest and field record

Write the month: _____ Team: _____

**Write down what actually happened**

Record the date, crop, bed and actual harvest weight. Write how much was used, kept, shared or lost. These records help you check the next plan.

## Harvest record

| Date | Crop / bed | Picked kg | Used kg | Stored kg | Sold/shared kg | Lost kg |
|---|---|---|---|---|---|---|
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |

A i athu ṱolwa nga muḓivhi wa zwa vhulimi — ndi tsumbaṇḓila ya u pulana, a si ndaela. I sumbedzeni muṱuṱuwedzi waṋu wa zwa vhulimi, ni ite ndingo ya mavu musi ni sa athu shumisa tshelede kha mavu.
Dzilebulu dza muvhigo u bviswaho dzi na ṱhalutshedzelo dzi sa athu u sedzuluswa. Mańwalwa a muvhigo wo vhulungwaho a dzula nga luambo lwe a rekhodiwa ngalwo.

PLAN VERSUS REALITY

# Fruit, eggs, honey and other production

Write the month: _____ Team: _____

**Use the unit you actually measured**

Write the food and its source: tree, coop, hive or bed. Use kg for weighed food, eggs for counted eggs, or jars, bunches or items. Record jar size in the source column. Keep all amounts on one row in the same unit.

| Date | Food / source | Collected | Unit | Used | Sold/shared | Lost |
|---|---|---|---|---|---|---|
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |

## Weekly observation

| Week | Rainfall | Irrigation | Pests / disease | What we observed | What we changed |
|---|---|---|---|---|---|
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

## Decision for next month

Observe. Adjust. Write it down.

A i athu ṱolwa nga muḓivhi wa zwa vhulimi — ndi tsumbanḓila ya u pulana, a si ndaela. I sumbedzeni muṱuṱuwedzi waṋu wa zwa vhulimi, ni ite ndingo ya mavu musi ni sa athu shumisa tshelede kha mavu.
Dzilebulu dza muvhigo u bviswaho dzi na ṱhalutshedzelo dzi sa athu u sedzuluswa. Mańwalwa a muvhigo wo vhulungwaho a dzula nga luambo lwe a rekhodiwa ngalwo.
